NELA Lock-Ups

NELA has various models of lock-ups to meet the needs based on the requirements of your press. Tool less lock-ups to hold your plates on press. Customized lock-ups to fit your press or to match multiple presses. All NELA [Lock-Ups](#) are designed and manufactured by our experienced engineers in the USA. NELA quality is guaranteed to ensure trouble free operation for years to come.

NELA Lock-Ups

After our lock experts install the NELA Lock-Ups, zero the press, and train your staff, you will be ready to see improvements on the first run. You immediately benefit from NELA's 25+ years of expertise with printing and press register. Take advantage of a NELA turnkey installation: Plate Punch/Bender, plate automation, and Lock-Ups from one source.

NELA Slot Lock

- Specifically designed for the following presses: Goss Community & Urbanite, DGM, Tensor, and Harris 845 & 1650
- Easy installation; often existing mounting holes can be used
- 3/8" center pin included with lock for lateral register providing easy plate mounting and removal on press
- Simple and proven design
- Minimal maintenance required

NELA Goss Replacement Lock

- Specifically designed for the following presses: Metroliner, Headliner, and Colorliner
- NELA Lock-Ups can be adjusted from 50" to 42"

- Custom ranges available up to 64" web based on customer's specifications
- Superior register pin system
- Reduced plate length for significant plate material savings
- Designed to withstand a web wrap

NELA Lock-Up Solutions for other presses include:

- Harris M1000
- Harris V15
- Wifag
- KBA
- Man Roland Lithomatic II
- Mitsubishi
- TKS
